Abortion isn't subject to normal medical standards. If you see a health inspector at an abortion clinic, he's there to check out the employee cafeteria, not the operating rooms.

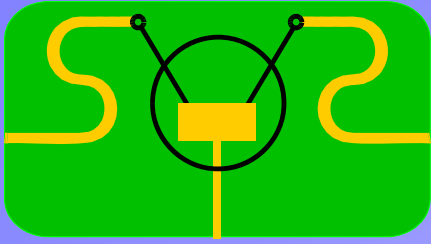

Knowing that if a true poll were taken, we would be soundly defeated, we simply fabricated the results of fictional polls. We announced to the media that we had taken polls and that 60 percent of Americans were in favor of permissive abortion. ... Few people care to be in the minority.

While the deep concern of a woman bearing an unwanted child merits consideration and sympathy, it is my personal feeling that the legalization of abortion on demand is not in accordance with the value which our civilization places on human life. The minister's work is also important and he should be trained, perhaps by the Federation as to our ideals and the goal that we hope to reach. We do not want word to go out that we want to exterminate the Negro population, and the minister is the man who can straighten out that idea if it ever occurs to any of their more rebellious members.
